Shepherd

The Shepherd Line 18', 22', and 27'

The 18' The superlative engine and cleanly designed hull constitute twin features of unparalleled craftsmanship which make Shepherd boats the finest afloat.

Line for line there is no more graceful design than is found in Shepherd boats.

Long-seasoned, carefully selected wood is expertly fashioned and highly finished for this smartly turned-out Runabout.

Operating controls are close to hand and the mold-curved windshield permits wide, uninterrupted vision.

The 22' Shepherd boats are the result of unceasing research in marine engineering and architecture to build in one boat all the refinements which would give boatmen the perfection of quality craftsmanship.

Sudden weather changes or relief from hot sun riding makes a convertible top a practical utility for your Runabout.

The 27' Graceful design, power, safety and comfort make Shepherd boats the finest boats on the water. Experienced boatmen built them; men who know boats buy them.

Engines in the stern afford maximum running efficiency and quiet performance at all speeds.

Each Shepherd is a custom built boat for smooth, comfortable riding and long, rugged service.
